### Wheat Growing.

To the Editor of the Alexandria Gazette: We have prepared the following statement of wheat growing that those who think the farmer is making all the money may see at a glance where his profits go, and who are getting them. We have figured on ten acres with a product of twenty bushels an acre:

Cost of ten acres at \$40 per acre,	\$400 00
Interest per annum at 6 per cent,	24 00
Cost of two horses for breaking up ground 8 days,	16 00
Hire of hand with team,	6 00
Cost of preparing and drilling in seed,	5 00
Cost of 124 bushels of seed at 80 cents,	10 00
Cost of fertilizer \$5 per acre,	50 00
Tax 20 cents per acre,	2 00
Harvesting \$1.50 per acre,	15 00
Marketing,	6 00
Total cash of production,	\$149 00
Field of 10 acres 200 bushels at 60 cents per bushel,	\$120 00
Value of straw,	40 00
Total,	\$160 00
Balance in favor of farmer,	\$11 00

A pittance of eleven dollars to the farmer for his year's venture in wheat growing.

The commission merchant who buys the wheat direct from the farmer sells to the miller at an advance of 3 cents, making \$6 by the transaction. The miller grinds it and makes 44 barrels of straight grade strong baker's family flour at \$4.25 per barrel, or \$187 for the whole lot. From the wheat of each barrel are made fifty pounds of middlings and bran at 1 1/2 cents a pound or 75 cents to each barrel, or \$33 on the whole, which added to \$187 equals \$220 which is \$94 more than prime cost less \$10 for barrels, or \$84.

The baker out of each barrel of 196 pounds, bakes 240 pounds of bread or a total of 10,560 loaves, for which he gets of the grocer, at 4 cents a loaf, a total of \$422.40, or \$182.40 advance on the price paid to the miller for his flour, and the total of his receipts is \$282.40 more than the farmer received for his wheat. If the flour is made into crackers, each barrel will make 212 pounds or a total of 9,228 pounds, which at 8 cents per pound wholesale to the grocer is \$738.24, and at 10 cents by the grocer to the consumer is \$922.80, or \$812.80 more than the amount paid to the farmer.

It is clear from the foregoing statements, by no means exaggerated, that the farmer is not receiving the pay he ought to have for wheat growing. After all his expenditure of toil and money and his long waiting, the commission merchant, the miller, the baker and the grocer get his entire crop, and his own scanty pittance is the chaff and straw. He sells his wheat in the grain at a little over a cent and a quarter a pound and buys it back from the grocer in the shape of crackers at ten cents a pound. But it seems to be the farmer's misfortune to be fleeced and gouged in all his efforts to feed the millions. Every body hits him a whack, thinking that nature is continually pouring in to his hands supplies without stint and that he ought to disgorge to those who are less favored. It is not only the middle man, the miller, the baker, the grocer, the fertilizer peddler and the tree and seed swindler who are laying him under tribute, but the assessor—as if his grievances were not already severe enough in order to provide revenues to carry out the provisions of unwise enactment of misrepresenting legislators, and to maintain innumerable official sinecures—taxes the portion of his farm for which he has paid, and the parts for which he is still in debt—taxes his stock, his working implements and the furniture of his house; nothing indeed is left untaxed, and the collector follows fast in his steps and collects the oppressive levies without let or hindrance.

#### SODA TOAST.

We ask your attention to that great selling specialty in the Cracker line, of George E. Hill & Co., "SODA TOAST." It works its way into popular favor, for the following reasons: 1st. It has something of the flavor, and of the quality of the higher priced sponge cakes such as Sea Foam, Snow Drift, etc., but sells at about 4 cents per pound less. Its small size and greater substance makes it a prime favorite with all classes. 2nd. It is delicate, pure, healthful, strengthening; an ideal summer biscuit.

#### VERY BEST

#### TIMES HAVE CHANGED.

Why should Dentistry cost as much as formerly? Clothing, shoes, food, sugar, watches, pianos and a hundred other articles are cheaper, science and improved machinery having reduced the cost! Science and improved machinery produce the BEST DENTISTRY for \$100. Grandfather's dentist charged four times as much for vastly inferior work, and there are dentists to-day who still cling to the traditions of grandfather's time. Compare our work and prices with one of these, and realize the progress of the age.
